

Sample Coding for Instructional Staff Training

EFM 45 Report: Page 7E, column 2 and/or 3

Definition: Activities associated with the professional development and training of instructional personnel. These include activities such as in-service training (including mentor teachers), workshops, conferences, demonstrations, courses for college credit (tuition reimbursement) and other activities related to the ongoing growth and development of instructional personnel. The incremental costs associated with providing substitute teachers in the classroom (while regular teachers attend training) should also be included in this code. All costs should be charged to this code regardless of whether training services are provided internally or purchased from external vendors.
